ONE HOME AT A TIME

As one of Southern California's leading companies offering comprehensive real estate solutions, we're in the business of helping homeowners, and improving communities — one home at a time. We've made it our mission to rejuvenate neighborhoods and increase the standard of living by improving the overall quality of housing for residents.

With our focus on residential redevelopment, we specialize in building new homes, rehab and remodeling existing homes, and buying and selling homes. More than 35 years in the field of corporate real estate development has provided us with both the experience and connections to find exceptional real estate investment properties — before they reach the traditional sales channels. And that's what makes us Off The Grid.

"Honesty and integrity are the two words that best describe Off The Grid. HIGHLY recommended."

— KRISTEN W.

CUSTOMIZED SOLUTIONS

We begin by working one-on-one with each customer; we know that being informed is the key to a smooth and successful experience. We identify their ultimate goals, assess the property, and provide customized, creative solutions.

We arm our clients with the knowledge to make the best decisions, saving them valuable time, money, and stress.

Working with proven methods and techniques, our vast network of buyers, and the ability to directly purchase homes and make cash offers, we can ensure an extremely fast, and hassle-free transaction, selling each property quickly, and with maximum profits. If we're not able to find the right fit for our client, we won't take on the project. Our goal is for our clients to be pleased with their decision to work with us, and to have no regrets.

"This team makes the process simple and easy. They have the knowledge and systems to get the job done!"
